Avior - sock

I got the most beautiful handdyed yarn from my halvesister who lives in Finland. It was Glittersukka from Mokkuyarn, in the colors Something Pink and Arttu. Wish I could catch the glitters in a photo. Already on Christmas Day I started knitting these socks, they are knitted top down and very simple with a little bit colowork, and eventhough fairisleknitting isn't my forté I'm still very pleased with how they turned out.

Material

Yarn: Glittersukka from Mokkuyarn in the colors Something Pink och Arttu. One skein of 100 grams in each color (but 50 grams would most likely be enough too). I knitted sock 2 in reversed colors, so on sock 1 is Something Pink color A, and Arttu color B, and on sock 2 Something Pink is color B and Arttu color A.

Knitting needles: Doublepointed size 1,5 mm and 2,0 mm. (Or suitable circular needles if you prefer the magic loop-method)

Gauge: 32 stitches/10 cm

Size: Woman size 37. (size is easily adjustable)

Other stuff: marker, needle and scissors.

Abbreviations:

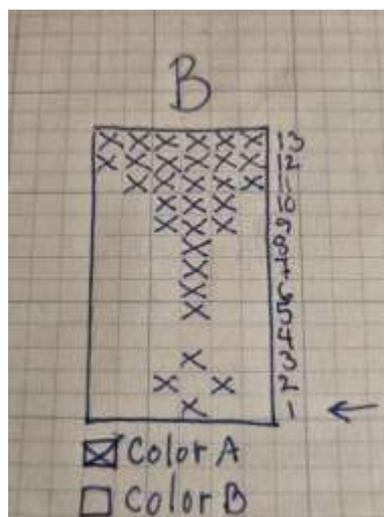

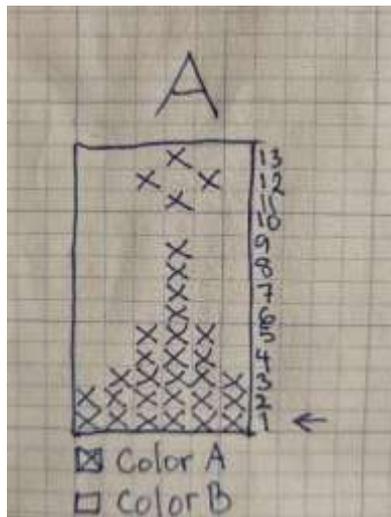

k: knit

p: pur

tbl: through back loop

sts: stitches

k2tog: Knit 2 sts together

Start:

With knitting needles 1,5 mm, cast on 66 stitches with color A. Place marker at beginning of round.

Leg

K1tbl, p1 for 15 rounds.

Change to knitting needles 2,0 mm (only knit from now on) and follow pattern A for 13 rounds. Cut color A and continue to knit with color B for 15 rounds. You can easily adapt the length of the leg by adding or making less rounds.

Heelpreparation

When you're happy with the length of the leg it's time to prepare for the heel, by knitting the first 32 stitches with a piece of yarn in a different color. This will be pulled out later so it's important that it is easy to differ from the rest of the work. Then, go back and continue knitting with yarn B, knitting over the heelstitches (you should not have to cut yarn B).

Foot

Time to start knitting the foot. You need to do a bit of calculation to get the length perfect. Heel and toe will measure approximately 9,5 cm. The pattern bit that you'll repeat right

before the toe measures 3,5 cm (it's the same, just reversed, as the bit you'd knit after the cuff so I do recommend you to measure it yourself incase you knit a bit differently than I do). My socks are size 37, and 23 cm is a good length. The one colored part will then measure: $23 - 9,5 - 3,5 = 10$ cm, measured from the heelround.

When you're happy with the length of the foot, (minus 13 cm), you will now follow pattern B.

If your sock feels a bit short, or you have miscalculated something, you can add knitrows after pattern B with color A if you'd like.

Toe

Time for the toe, if you knit with doublepointed needles, this is how you should distribute the stitches:

Needle 1: 16 sts

Needle 2: 16 sts

Needle 3: 34 sts

Needle 1 and 2 is on the bottom, make sure they align with the heelstitches.

Round A (decreaseround):

Needle 1: k1, slip 1 knitwise, put it back on left needle twisted and knit 2 stitches together tbl, k until end of needle.

Needle 2: k until 2 sts remains: k2tog.

Needle 3: k1, slip 1 knitwise, put it back on left needle twisted and knit 2 stitches together tbl, k until 2 sts remains: k2tog.

Round B: knit

Repeat rounds A and B a total of 8 times, and then repeat only round A a total of 6 times. You should now have 10 stitches left. Cut yarn and sew through the remaining stitches.

Heel

Only the heel left. You can choose to pull out the heelyarn first and then put the stitches on the needles, but I think it's too big of a risk to loose stitches so I pick up the stitches first, and then pull out the heelyarn.

Pick up 32 + an extra stitch on each side = 33 + 33 stitches and distribute them like this:

Needle 1: 17 sts

Needle 2: 16 sts

Needle 3: 33 sts

Annimia

The heel is knit just like the toe, but you begin with a round without decreases and end with a round with decreases. Place marker for beginning of round (make sure it's on the side of the sock).

Round A: knit

Round B (decrease round):

Needle 1: k1, slip 1 knitwise, put it back on left needle twisted and knit 2 stitches together tbl, k until end of needle.

Needle 2: k until 2 sts remains: k2tog.

Needle 3: k1, slip 1 knitwise, put it back on left needle twisted and knit 2 stitches together tbl, k until 2 sts remains: k2tog.

Repeat round A and B a total of 11 times, 11 stitches should be remaining on each side. Use Kitchener stitches to sew the sides together invisibly.

Sew in all ends and block if you like. Knit another sock with the same colors or with reversed colors.
